

LT56 Laser Tool

Included Accessory

HR220 Optional

LT56 Package

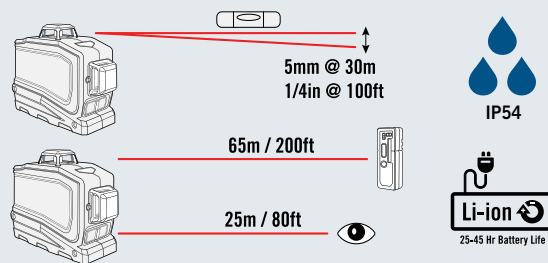

LT56-2 Package with HR220 Receiver

Specifications

Laser Power	Less than 1mw
Class/Wavelength	Class 2 / 635nm
Batteries	Lithium-ion, 7200 mAh, 3.7 V
Battery Life	1 beam - 45 hours 2 beam - 35 hours 3 beam - 25 hours
Charge Time	12 hours (30 minute quick charge will provide 2 hours operation with 2 beams)
Battery Warranty	2 years
Charger	Input: 100-240V AC 190 mA Output: 5V DC 800mA
Out of Level Indication	Flashing beam - triple flash every 10 seconds
Self Leveling Range	4° ±1° all direction
Dust and Water Resistance	IP54
Operating Temperature	-10° to 45° (14 °F to 113 °F)
Storage Temperature	-20° to 60° (-4 °F to 140 °F)
Size (L x W x H)	152 x 116 x 84 mm (4.6 x 6.0 x 3.3 in)
Weight	0.67 kg (1.48 lb)

Rugged Universal Laser Layout Tool

LT56 Laser Tool

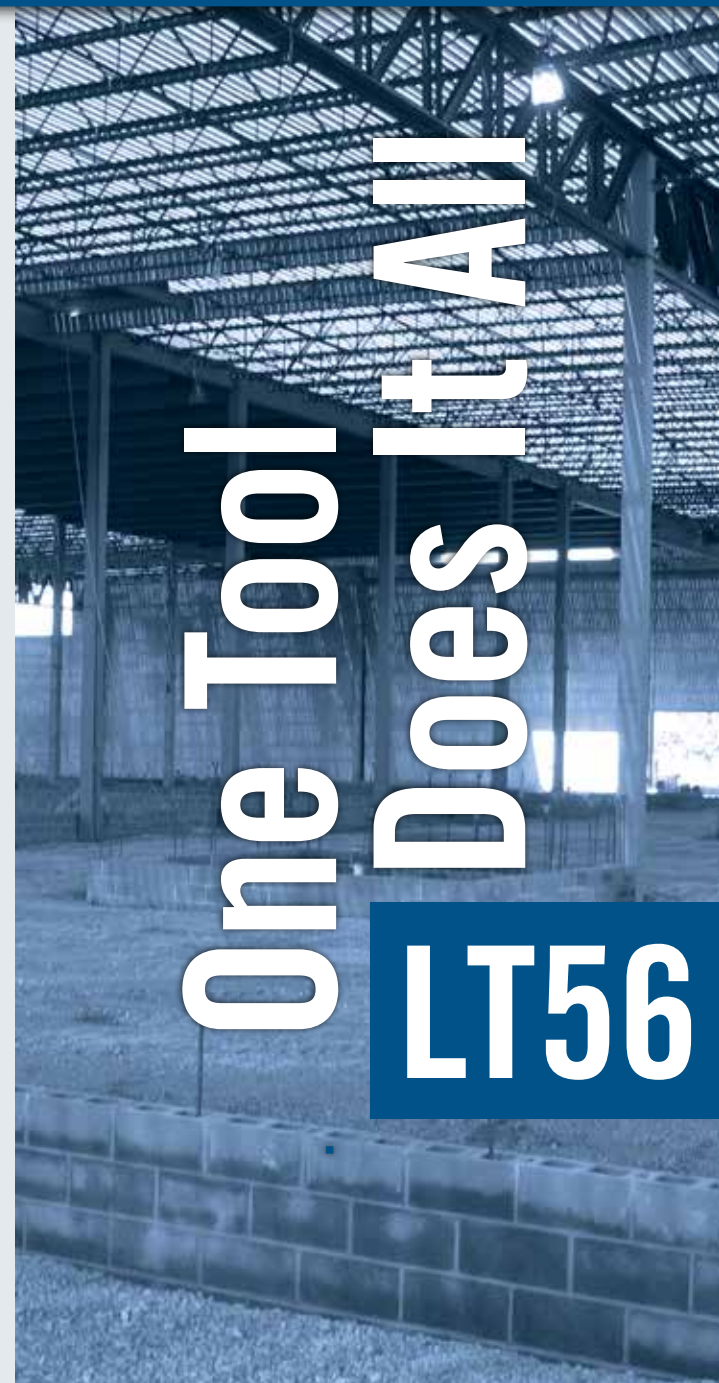

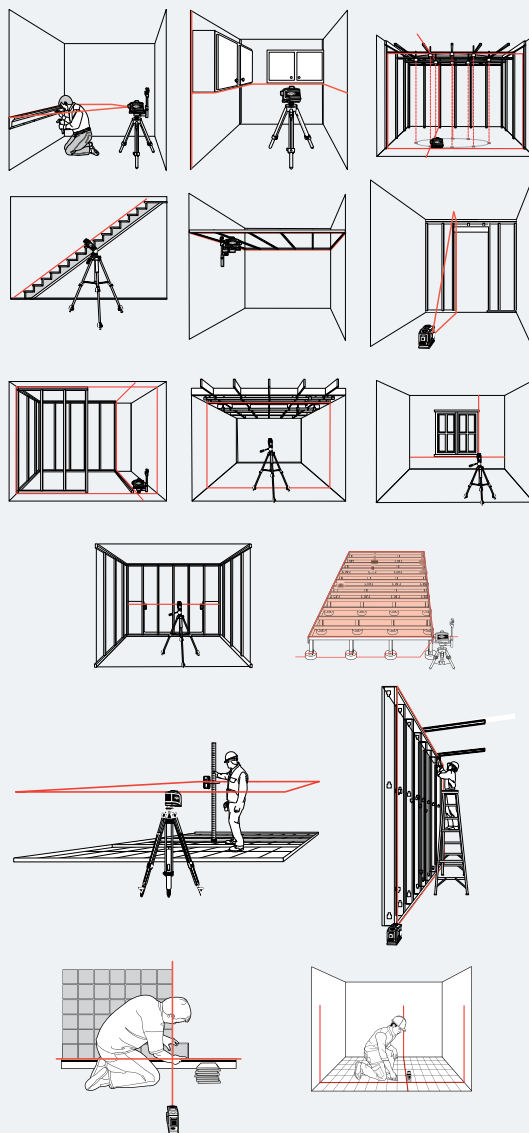

Rugged Universal Laser Layout Tool

The LT56 provides three 360 degree planes of laser light. A horizontal plane and 2 vertical planes 90 degrees apart provide all the reference required for interior layout.

- Bright crisp laser lines - extends the working range and are easy to see
- Lithium-Ion batteries provide 25 hour operating time - huge savings on battery cost compared to alkaline models and are ecological friendly
- Rugged and durable - 3 foot (1m) drop specification means the LT56 can keep working even after minor accidents
- Versatile mounting accessory - includes ceiling track, magnetic and tripod mounts with rotation and fine vertical adjustment
- The HR220 Line Receiver can be added for short range exterior layout and elevation control

Applications

One Tool Does It All
